International Event Ticket Policy

Ticket Assignment

- 1.1 The first International Event Ticket purchased under a RIN will be assigned to the name on the Representative's account.
- 1.2 Any additional Tickets purchased are considered secondary Tickets allotted for Guests.
- 1.3 The RIN assigned to the Ticket is eligible for the applicable Event Registration related promotion(s) for that Event (this could include VIMR's, attendance points, bonuses, etc.)
- 1.4 Secondary Tickets can be assigned to Guests through the "Ticket Manager" of the purchasing Representative's Virtual Office or my5LINX app. Secondary tickets should be assigned prior to the Event start to ensure shorter wait times.
 - To assign a secondary Ticket to an individual that is not a current Representative, that individual's name must be assigned to the Ticket through the "Ticket Manager" of the purchasing Representatives Virtual Office or my5LINX app.
 - To assign a secondary Ticket to another Representative, with the benefit of any applicable promotions for that Event (this could include VIMR's, attendance points, bonuses, etc.), that Representative's name and RIN must be assigned to the Ticket through the "Ticket Manager" of the purchasing Representatives Virtual Office or my5LINX app.
 - To assign only a secondary Ticket to another Representative, that Representative's name must be assigned to the Ticket through the "Ticket Manager" of the purchasing Representatives Virtual Office or my5LINX app.
- 1.5 If the Representative has multiple accounts with one or more purchased International Event Tickets under each account, the first Ticket registered at the Event must be used for the Representative, in their name. The additional Ticket(s) under either account may then be assigned to the guest(s) of the Representative's choice.

Example: The Representative has one personal position and one business position with an International Event ticket purchased under each of them. The Representative registers under the business position at the International Event; therefore the personal

position Ticket can be used for any guest of the Representative's choice. If attendance points are awarded at that particular event, they can be moved to the person who registers if they are an active rep per the Representative's request. You must be present with your guest at the International Event to register them under the second, third, etc. position if that is the primary ticket being used.

- 1.6 If the Purchasing Representative account is a Business Entity, and there is more than one person managing that Entity on file any name that is associated with the Business in our system may use the first Ticket. Individuals not on file as authorized users will not be able to use the first Ticket.
- 1.7 Mistakes in entry or assignment should be address prior to the Event Start. If a mistake is discovered post Event, the request must be made with the 5LINX Representative Services Department no more than 30 days after the Events last day (Saturday) by the ticket purchaser. 5LINX, in its sole discretion, will determine the reasonable course of action in line with these Policies in order to ensure the proper Representative receives any applicable credit for purchase of the Ticket or attendance at the Event.
