

# Everything You Need to Know About the NEW 5LINX Legacy App Sampling Program

## **What is the Sampling Program?**

This NEW program allows you to offer a free sample OXZGEN product to a prospective customer. You can send an invite to accept the free sample by sharing a video through the My 5LINX Legacy app. When the prospect accepts the invitation by providing their mailing address, you will be prompted within the app to authorize the done-for-you fulfillment of the sample.

## **Am I eligible to utilize the Sampling Program?**

If you are Platinum Discount Network (PDN) subscriber, you automatically have access to the new Sampling Program. This is because the Sampling Program is built into the My 5LINX Legacy app, and you must have PDN to utilize the My 5LINX Legacy app.

## **Which OXZGEN products can I send samples?**

At the time of program launch, you may offer either of two samples to prospects: An Intensive Relief Rub sachet, or an 8ml bottle of PDQ Pain Relief Spray.

## **How much does it cost to send samples?**

The Sampling Program works with Credit. Each Credit is \$9 and can be purchased in quantities of 1, 3, 5 or 10 Credits directly within the My 5LINX Legacy app. The Credits are then redeemed when you wish to send a sample to a prospect. Initially, it takes a single credit to send a single sample of our two initial items: Intense Relief Rub and PDQ.

## **What does my redemption of a credits include?**

Each time you elect to redeem a credit or credits to send a sample to a prospect, your transaction includes the complete fulfillment of the desired sample by mail, directly to your prospect. This includes the cost of the physical product, packaging, marketing insert, processing, and postage! Additionally, your prospect will receive automatic follow-up emails to support your sales efforts. You will also be automatically prompted to follow up with pre-written text and voice scripts through your My 5LINX Legacy app.

## **Is there compensation?**

There is a 10% CV on the purchase of Credits. There are no points. The program is being offered below our cost, but we are still paying a CV based on the product purchase.

## **Can I send samples to myself?**

No. The Sampling Program is a subsidized benefit of PDN. We are absorbing some of the cost to support the end-to-end fulfillment of a sample on your behalf. Therefore, it is not allowed to directly or indirectly send samples to yourself. Thank you for following this policy in good faith.
